What is GeoBlue Xplorer?

International health insurance that covers you inside and outside the U.S.

The GeoBlue Xplorer health plan is designed to support the international lifestyles of those who travel to or from the United States for extended periods of business, leisure and study. If you leave home for six months or more, your health and financial security are at serious risk because of significant gaps in most available insurance coverage and services. This risk is only heightened by limited knowledge of health and safety hazards around the world, including medical treatment from unfamiliar providers.

GeoBlue Xplorer is the ultimate international health plan because it combines comprehensive worldwide benefits with a new generation of medical assistance services, which include an impressive array of online and mobile tools to help you identify, access and pay for quality healthcare all around the world.

GeoBlue Xplorer plans provide access to care inside and outside the U.S. that fit your health and travel needs. GeoBlue allows members to travel to other countries for high quality care, including covered elective treatments.

GeoBlue's Global Health
and Safety Services —
Because Insurance Isn't Enough.

Meet GeoBlue, an experience well beyond traditional health insurance

GeoBlue provides unsurpassed service and the convenience of mobile technology to access the best medical care no matter the town, country or time zone.

Easy Access to an Elite International Provider Community

GeoBlue has an elite network of doctors from most every specialty ready to see you in over 190 countries. Only a small fraction of doctors around the world meet GeoBlue's exacting standards— participation is by invitation only. We seek out professionals certified by the American or Royal Board of Medical Specialties who speak English, and we factor in recommendations from 160 Physician Advisors from all over the world.

We assemble in-depth provider profiles so our members can choose with confidence, and we put formal contracts in place to ensure preferred patient access. GeoBlue doctors and hospitals bill us directly so you don't have to worry about filing a claim

Accessing care in the United States

Certain GeoBlue plans allow members to access the Blue Cross and Blue Shield Blue Card PPO network within the United States. With BlueCard PPO, you can access in-network Blue Cross and Blue Shield doctors and hospitals across the U.S. so you can get the care you need when you need it. BCBS has built direct relationships with an expansive network of more than 1.7 million in-network providers, spanning every zip code in the United States. That's more board-certified doctors than any other health insurance company. While you can choose to see any provider you want, both in- and out-of-network, you'll typically pay less when you go to a provider in the Blue Card PPO network.

Personal Safety Intelligence

GeoBlue provides unsurpassed resources designed to promote personal safety by giving members convenient access to vital news, health and safety analysis and medical translation tools.

- Global Health and Safety news alerts published daily and delivered by email or smartphone.
- City and country level profiles on crime, terrorism and natural disasters.
- Brand name equivalents for more than 400 common over-the-counter and prescription drugs in 55 of the most frequently visited countries.
- Translation of hundreds of medical terms and phrases into the 14 most widely spoken languages.

Around-the-Clock Assistance Call Center

GeoBlue maintains a 24/7/365, toll-free call center to assist GeoBlue members with everything from routine requests to medical emergencies. The GeoBlue staff has years of experience with international medical assistance and has close working relationships with the best doctors around the globe.

Emergency Evacuation and Centers of Excellence

GeoBlue coordinates emergency services with a worldwide network of contracted Physician Advisors as well as air ambulance operators selected for their safety records. Members in need of life-saving medical intervention are treated in Centers of Excellence in the U.S. and around the world whenever possible.

Personalized Member Services

Informed ChoiceSM

When GeoBlue Xplorer members experience an unanticipated medical problem, they can request a second opinion and referral through the Informed Choice service. A GeoBlue Regional Physician Advisor is available to discuss the member's diagnosis and treatment plan directly with the attending physician.

Personalized Recruitment

If GeoBlue Xplorer members need a physician or specialist in an area not currently covered by the GeoBlue network, GeoBlue will make every effort to recruit and contract with an appropriate, qualified doctor.

Personal Solutions

GeoBlue Xplorer members enjoy a full range of Personal Solutions. Your online and mobile tools allow you to check medical symptoms, understand your health risks and access personalized prevention and wellness recommendations.

Global TeleMDTM

In addition to the worldwide network of healthcare professionals available through the GeoBlue health plan, we've teamed up with Teladoc Health to bring members Global TeleMD, a telemedicine smartphone app that provides unlimited, 24/7/365 access to doctor consultations by telephone or video, at no additional cost. Doctors are available within and outside the U.S. Prescriptions may also be provided, as appropriate (subject to local regulations).

Direct Pay

GeoBlue members can avoid paying out of pocket for care by using Direct Pay. Through this service participating providers outside the U.S. bill GeoBlue directly for covered medical treatment. We suggest requesting Direct Pay 48 hours in advance of your appointment.
